

Spartanburg Science Center 2017 Summer Camp

Space Explorers *July 31-Aug. 4 (9:00-12:00)*

Join us for an up close look at the planets and the stars of our solar system. Learn about the Milky Way and take a trip through the galaxy. Experience a planetarium show or two in our own portable Star Lab planetarium. Ages 6-11 (\$135)

Pre-Algebra Jump Start! Be Ready to Conquer Your Class in the Fall! *July 31-August 4 (1:00-4:00)*

This summer math camp will help strengthen concepts that will be crucial for Algebra I and beyond. Learning will take place in a small group environment and various instructional methods will be used, including a multi-sensory approach, strategies for solving problems, and playing games. Help your student develop a more solid understanding of the concepts that are often confusing for middle school students such as: fractions, decimals and percentages, positive and negative integers, order of operations, and exponents. Rising 6th & 7th graders only! Ages 9-12 (Class Size Limited!) (\$135)

Prehistoric Sharks and Reptiles *July 31-August 4 (1:00-4:00)*

We know what sharks and reptiles are on Earth today, but what lived in Prehistoric Times? Discover the amazing animals, including dinosaurs that lived in the time period before man. Learn how scientists investigate Prehistoric Times! Ages 6-11 (\$135)

Heavenly Bodies Act Up! *Aug. 7-11 (9:00-12:00)*

On August 21, 2017, the Sun's shadow will creep across North America as millions revel in a rare total solar eclipse. It is the first one to be seen in the continental United States since 1979 and the first to run sea to shining sea since 1918. This camp explores the eclipse and many other heavenly events that occur in our sky! Learn all about it! Ages 6-10 (\$135)

Extreme Weather *August 7-11 (1:00-4:00)*

Are you interested in the weather? Does it seem strange to you that one storm can knock down a tree? Why do hurricanes cause so much damage or very little at all? We'll explore the mysteries of the weather around the world. You will find out what causes extreme weather and what can be done about it. Ages 6-11 (\$135)

Solar Eclipse Camp *August 21 (9:00-4:00)*

Experience the solar eclipse with our own Mr. Peter! You will be in camp with us and then experience the solar eclipse SAFELY using special glasses to see through! Return to school the next day as an expert! Bring your lunch!

Spaces Limited! Enroll NOW!

NO SCHOOL!

All Day Camp 9-4 pm

Ages 6-11 (\$75)
