

STEM TO YOU!

Don't have a way to get your scientists to the Science Center? Do not fear! We bring STEM to YOU!

- **Lessons by grade level**

- We offer lessons for all ages (2k-12th grade)
- All lessons are hands-on and fit the South Carolina Science Standards
- Each age group has a “Lesson Description” pdf that will explain what each of the lessons consist of
- Each lesson lasts between 45-60 minutes depending on the age group
- We will pack up everything that we need for the lesson and bring it to your classroom, church group, and more
- If you are located outside of Spartanburg County, we will charge you for mileage (50 cent per mile)
- If you would like for us to visit more than one class of students, you will need to book multiple lessons.
 - We can teach up to 35 students at once at your location, If you have more, you will need to book multiple lesson times.
- Please call (864)583-2777 or email sciencecenterspartanburg@gmail.com with any questions

- **STARLAB**

- We can bring our traveling inflatable planetarium to you! We require that you have a large indoor area to set up the planetarium (a gym or large empty room works best)
 - It is 12 feet wide and 12 feet tall
- We can show your students constellations, the world globe (continents), Greek Mythology constellations, and more!
